## The shape of success

Meet the Trust GXT 131 Ranoo; a wireless gaming mouse with 9 programmable buttons, a one-click triple-fire button and RGB. With its ergonomic shape, you'll be gaming comfortably for hours on end. You can even keep the weight of this gaming mouse down by only using one battery. If you ever wondered what the shape of success might look like: this is it.

## Faster and more intense

Different situations require different tactics, which is why the Ranoo was created to be versatile. With its advanced optical sensor, you'll be switching playing styles to whatever suits the situation best. Go in fast with its maximum resolution of 2400 DPI, or turn it all the way down to 800 DPI for slow and steady movement. Everything in between (1200, 1600 and 2000 DPI) is just as easily available if the mission requires it.

## Never get tangled up again

Whenever gaming sessions get intense, the last thing you need to worry about is your mouse cord getting stuck. With the Ranoo, that problem is gone forever. Thanks to the wireless micro-receiver, you'll be gaming with a steady 2.4GHz connection, keeping you ahead of the game at all times. Enjoy your freedom.

## Personalise

The Trust Ranoo has 9 programmable buttons, giving you plenty of options to create your perfect gaming mouse. On top of that, the Ranoo comes equipped with RGB as well, making this mouse a part of your identity, as much as it's a part of your gaming setup. Personalise the Ranoo as you see fit and become one with your game.
