Color	RGBWW

02

Installing Your Device

per Pack:

Press down the spring loaded clip firmly into the spring groove at the bottom of downlight. After installation, the spring loaded clip will be difficult to pull out.

03

Unplug the device from power before installation.

Place the template and trace it with a pen, then cut the hole in the ceiling.

Open the hardwire box swing cover. Push open the round hole on the side by a tool. Using wire terminals, connect green ground wire of cable to green ground wire of box, so are the white wire and the black wire.

04

Connect the fixture to the hardwire box and Insert it through the mounting hole. Push spring loaded clips on the fixture upwards and insert fixture base in to the mounting hole, then release the clips.

Notice:

- Make sure the distance between the devices and the router is less than 100ft.
- Keep as few obstructions (e.g. wall, windows) as possible between the devices and the router.

Pairing Your Downlight with Govee Home App

What You Need:

- A Wi-Fi router supporting the 2.4GHz and 802.11 b/g/n bands. 5GHz is not supported.
- A smartphone or tablet running iOS 8.0 (or above) or Android 4.3 (or above).

05

- Download the Govee Home App from the App Store (iOS devices) or Google Play (Android devices).
- Turn on the Bluetooth in your smartphone.
- Open the app, tap "+" icon in the top right corner and search "H601B".
- Tap the device icon and follow the on-screen instructions to complete pairing.

Controlling the Downlight with Your Voice

- Open the Govee Home App, then tap the device icon to enter the details page.
- Tap the "setting" icon ⚙️ in the top right corner.
- Select "Using Guidance" and follow the on-screen instructions to begin using voice control.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

	Bluetooth®	Wi-Fi
Frequency	2.4GHz	2.4GHz
Maximum Power	<6.5dBm	<21dBm

IC Statment

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device."

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

This Class B digital apparatus complies with Canadian ICES-005. Cet appareil numérique de la classe B est conforme à la norme NMB-005 du Canada.

(1) l'appareil nedoit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

IC RF Statement

When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements.

Lors de l'utilisation du produit, maintenez une distance de 20 cm du corps afin de vous conformer aux exigences en matière d'exposition RF.
